

IN THE CLAIMS:

1. (Currently Amended) An antireflection film comprising:

a transparent layer formed of a cured product of an ionizing radiation-curable resin composition, the transparent layer having a surface hardness of not less than H in terms of pencil hardness as measured according to JIS K 5400;

a concave-convex portion provided on one side of the transparent layer, the concave-convex portion having a specific continuous and regular shape comprising fine concaves and convexes continuously provided at a predetermined pitch of not more than the wavelength of light; and

a layer, provided on the fine concaves and convexes, formed of a resin composition having a lower light refractive index than a refractive index of the transparent layer.

2. (Original) The antireflection film according to claim 1, wherein the transparent layer is backed by a transparent substrate film.

3. and 4. (Canceled)

5. (Original) The antireflection film according to claim 1, which has antistatic properties.

6. (Currently Amended) A polarizing element comprising: a polarizing plate; and, stacked on the polarizing plate, an antireflection film comprising:

a transparent layer formed of a cured product of an ionizing radiation-curable resin composition, the transparent layer having a surface hardness of not less than H in terms of pencil hardness as measured according to JIS K 5400; and

a concave-convex portion provided on one side of the transparent layer,

the concave-convex portion having a specific continuous and regular shape comprising fine concaves and convexes continuously provided at a predetermined pitch of not more than the wavelength of light.

7. (Previously Presented) A display device comprising: a display section; and, stacked or disposed on the display section in its viewer side, the antireflection film according to claim 1.

8. to 11. (Canceled)

12. (Previously Presented) A display device comprising: a display section; and, stacked or disposed on the display section in its viewer side, the polarizing element according to claim 6.
